Yüksek performanslı paslanmaz çelikten üretilen kılavuz teller, üstün esneklik ve dayanıklılık sağlar,  
Hidrofilik kılavuz teller, sürtünmeyi azaltarak, yüksek iletilbilirlik sağlar,  
Hidrofilik kaplama, kılavuz telin izlenebilirliğini artırır.  
Yüksek güvenli kılavuz teller, 304 paslanmaz çelikten üretilmiştir.  
Kardiyoloji, Radyoloji ve Kalp Damar cerrahisinde kullanılmaktadır.

*Made of high performance stainless steel guide wires provide superior flexibility and durability,*

*Hydrophilic guide wires, reducing friction, provides high forwardability.*

*Hydro-coating increase the traceability of the guide wire.  
High-security guide wires from 304 stainless steel  
Use for interventional Cardiology and Radiology.*
